CAFS Coaching & Mentoring

In my CAFS Coaching and Mentoring, I develop a session or series of sessions that are created with the unique needs of your school and context in mind and are completely tailored to your experience, stage and journey in Community and Family Studies.

We work together one on one at a time convenient for you based on an area of what you need & want right now without having to leave your school. We can even do a complete audit on your current approach in CAFS suited to the needs and focus of your school and its Strategic Direction.

My program has been developed with you at the forefront as you tackle your CAFS journey, taking the money and time wasting out of attending a PD session that has been developed with the 'generalist' teacher in mind.
